SUMMARY

Game programmer building in Unity and C# since 2018, focused on gameplay systems, metagame and internal tools.

EXPERIENCE

Senior Software Engineer · Fortis Games — Jan 2022 – Nov 2026

Mobile games in Unity, for clients and an in-house title, with a focus on LiveOps.

- Completed a mobile fishing game for a client, working on the metagame, backend integration and UI.
- Worked on an in-house mobile strategy game from 2023 to 2026, across combat, metagame and multiplayer.
- Created tools to automate and improve the build pipeline, and worked with Addressables and other plugins.
- Scrum with Jira.

Game Developer · Oktagon Games, Londrina, PR — Dec 2020 – Jan 2022

Mobile and PC games in Unity for clients. My first role in a game studio, alongside a large, experienced team.

- Built gameplay mechanics, puzzles, character customization, the lobby and analytics for a multiplayer PC game released on Steam.
- Started work on a mobile fishing game, later completed at Fortis Games.

Software Engineer · OKL Group, Porto Alegre, RS — Feb 2019 – Dec 2020

Software and Unity games for clients around the world.

- C# with SOLID design principles and test-driven development (TDD).
- Also worked with Vue.js, Java, Python, React and Selenium.
- Project estimates with Gantt charts and organization in Jira and Confluence.

Lead Unity Programmer · UNA-SUS / UFCSPA, Porto Alegre, RS — Mar 2018 – Jan 2019

Educational VR games in Unity for Samsung Gear VR.

- Organized the project and integrated assets for a small multidisciplinary team.
- Built movement, database, game manager, audio and narrative systems.

SELECTED PROJECTS

- **Mobile Strategy Game** — A mobile game for Android and iOS that combines auto-battler combat with 4X strategy elements, built in Unity by Fortis as an in-house title.
  Unity · C# · Mobile · Multiplayer · Tools
- **Rapala Fishing Simulator** — A fishing simulation game for Android and iOS, built in Unity for a client partnered with Rapala, one of the world's best-known fishing brands.
  Unity · C# · Mobile · Beamable
- **PIGGY: Hunt** — A multiplayer survival game for PC, released on Steam in October 2021, where survivors team up to escape the Infected, the creature hunting them down.
  Unity · C# · Multiplayer · Photon · Beamable
- **Bitmadness** — A 3D puzzle game for PC where players link connectors to close a circuit between two points.
  Unity · C# · PC
- **Muiraquitã** — An educational virtual reality game for Android (Samsung Gear VR) that trains UNA-SUS/UFCSPA students and doctors in primary healthcare, set in a riverside community in rural Pará, Brazil.
  Unity · C# · VR · Android
